ROOSEVELT and the Culebra Cut having met they entertain more respect for each other.

PRESIDENT ROOSEVELT has seen the justly celebrated Culver Cut. If he approves it the Panama can't be safe.

He has given his first surfaces that he spent \$25,000 in his campaign for Governor. If he just got the worth of his money all is well.

It is alleged that Platt has resigned his wife and may soon resign the U. S. Senatorship from New York. He has probably in his old age that it is not all life to be politically great.

LIEUT. PEARY got within 153 miles of the North Pole, and had the utmost difficulty in getting back, but succeeded in getting time on the ice to rest. Somebody will put an end to all that foolishness some day by going right up to the Pole.

The United States Government has initiated suit at St. Louis to disown the Standard Oil Co. and all its branches because of numerous violations of the Sherman Anti-Trust law. Let the worst come to the worst. It is about time.

HETTY GREEN is quoted as saying: "There is going to be a revolution in this country. The people are going to revolutionize the possession of the trust. There will be a deluge, and these streets will run with blood when the people are aroused." Just what she means is not yet known.

The railroads companies of the United States are said to have offered their employees a ten per cent increase in wages if they would accept the trust. The public will get their share of railroad prosperity in reduced rates when the railroads are free. It doth condescend, it need not.

Treasury is a current belief that Gov. Beckham will call the General Assembly in extraordinary session next January to attempt to have it pass a bill to prohibit the lot to be used on Louisville. If he does he will become a member of the Society for Whistling the Spots of the Moon and Perfume the Earth.

THE U. S. Census Bureau officially estimates the State of Kentucky to be worth \$1,27,486,230. That is a per capita of less than \$700.

A political revolution was to come in each person's share would be very small, and the very fact of Socialism being established would reduce the value of each share to very much less.

COUNTES DE CASTELLANE, nee Annie Gould, has secured a divorce from Count Boni and the custody of her children. She is to be married to Mme. Gould. In the suit it was shown that the Count blew in eight million dollars of her money. American husbands are to pay the price for a title generally find out too late that it is not worth it.

All have heard of the farm so steep that it could be plowed on both sides. It is located in Missouri, far west. Poetry in Howard county, owned by Charles Ridgeway is to be an actuality. In the stones of a flat bed of earth in the second, a fine clover field in the third, or surface, story, and an apple orchard in the fourth.

THE NEW YORK Central railroad was twice convicted of giving rebates to favored shippers and fined \$1,000,000 for the first offense. The Sugar Trust is now on trial for accepting rebates. It is a trial of whether the railroads can afford to bear the cost of affording the court to pay the penalties inflicted by the courts than to have competition. If the former the law will be ineffectual.

HARRIMAN AND HILL, the railroad magnates, are now preparing to construct their new trackage to give the stockholders of their railroad systems the larger dividends. The last dividend paid them the largest sum of the stock plus. Hill has agreed to a dividend of \$120,000,000 among the stockholders of the Great Northern and was given the stockholders a share of stock at par value for each share of Great Northern they now possess. Harriman is proposed to triple the tax he is deterred by a Federal law that taxes for the Government all part of the world.

above ten per cent. of the earnings of the Union Pacific. As soon as he finds out how to evade that law will make his divide. As to cheaper freight and passenger rates the public can be satisfied.
